## **DETAILED ACTION**

### ***Oath/Declaration***

1. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1 and 3-52 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.

2. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Claims 1 and 3-52 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175. The error relied upon to support the reissue application is not sufficient. Note MPEP 1414, section II, which states that the error must specifically be identified. It is sufficient that the reissue oath identify a single word, phrase or expression in the claim and how it renders

Art Unit: 1761

the original patent invalid or inoperative. While applicant states that the scope of the broadest independent claim is too broad in view of the prior art, applicant does not identify a single word, phrase, or expression in the claims which is being amended.

3. The amendment filed 9/14/06 proposes amendments to the claims that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required. Specifically, claim limitations added to the patent should be underlined and all deletions should be bracketed, rather than using a strike-through.

Applicant is notified that any subsequent amendment to the specification and/or claims must comply with 37 CFR 1.173(b). In addition, when any substantive amendment is filed in the reissue application, which amendment otherwise places the reissue application in condition for allowance, a supplemental oath/declaration will be required. See MPEP § 1414.01.

#### ***Information Disclosure Statement***

4. All references cited on the patent face must be cited in the reissue in order to be published. See MPEP 1455, section VII. Specifically, Pat. No. 5,146,841; 5,587,073; 5,780,088; and 5,809,787.

#### ***Response to Arguments***

Art Unit: 1761

5. Applicant's arguments filed 9/14/06 have been fully considered but they are not persuasive.

Applicant argues that the oath is compliant. However, it has the above noted deficiencies.

### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
